## PRODUCTION STATS

# Northstar

Landowner:	State   Federal
Operator:	Hilcorp Alaska
Discovered:	1984
First Production:	2001
Total Output:	181 million BOE
Oil Wells:	22
Average Output:	3,700 BOE/day

Ownership Interest: **100% Hilcorp Alaska**

Royal Dutch Shell found the oil pool northwest of Prudhoe Bay, near the boundary of state and federal waters 5 miles offshore. The pool couldn't be developed until BP built an artificial island in 1999, connected by a subsea pipeline to shore.
