Operator:	ENI Petroleum US
Discovered:	2003
First Production:	2008
Total Output:	47 million BOE
Oil Wells:	26
Average Output:	6,300 BOE/day

---

Ownership Interest: **100% ENI Petroleum**

---

Located in shallow waters between the Colville River delta and a small barrier island. A 6-acre gravel pad is connected to shore by a 5.7-mile pipeline bundle. Pioneer Natural Resources initiated production, and ENI had 30 percent ownership until taking full control in 2019, pairing with the Italian company's nearby Nikaitchuq unit. Oooguruk contains an estimated 90 million BOE of recoverable reserves.
