Wells:	<b>20</b>
Oil Output (2023):	<b>141K BBL</b>
Gas Output (2023):	<b>2.7 BCF</b>
Peak Production:	<b>1988</b>

Ownership Interest: **100% Hilcorp Alaska**

Nestled inside the boundaries of the Kenai National Wildlife Refuge, the Beaver Creek field in the Beaver Creek unit is connected by Hilcorp's 12-inch diameter pipeline to the refinery in Nikiski. The gas field was discovered in 1967, and Marathon Oil operated it until Hilcorp took over in 2013. Taps the Beaver Creek oil pool and Beluga and Tyonek gas pools.
