PRODUCTION STATS

Ninilchik

Landowner:	State
Operator:	Hilcorp Alaska
First Production:	2003
Wells:	50
Oil Output (2023):	-
Gas Output (2023):	14.3 BCF
Peak Production:	2006

Ownership Interest: **97.44% Hilcorp Alaska**
2.56% Uncommitted

First tapped by Marathon in 1966 but idle until 2003, when it came online as the largest Cook Inlet gas discovery in twenty years. Offshore reservoirs tapped from onshore pads named Pearl, Paxton, Susan Dionne, Falls Creek, Kalotsa, and G. Oskoloff, which is the most productive. Acquired by Hilcorp in 2013. Hilcorp Alaska drilled three new development wells in the unit in 2023: Pearl 10, Pearl 11, and Paxton 12.
