PRODUCTION STATS

Redoubt Shoal

| | |
|--------------------|-------------------|
| Landowner: | State |
| Operator: | Cook Inlet Energy |
| First Production: | 2001 |
| Wells: | 6 |
| Oil Output (2023): | 162K BBL |
| Gas Output (2023): | - |
| Peak Production: | 2003 |

Ownership Interest: **100% Cook Inlet Energy**

Amoco first tapped the Tyonek gas pool in 1968, but the unit was idle until Forest Oil put it into production in 2001 with the Osprey platform, the first new Cook Inlet platform in fifteen years. Pacific Energy Resources took over in 2008 and then Cook Inlet Energy in 2009. Osprey is connected by an 8-inch gas pipeline to the Kustatan Production Facility at the tip of West Foreland.
